Difference between TAM, SAM and SOM. Total addressable market (TAM), or total available market, is the total market demand for a product or service, calculated in annual revenue or unit sales if 100% of available market is achieved. Serviceable available market (SAM) is the portion of TAM targeted and served by a company's products or services.

The United States subprime mortgage crisis was a nationwide financial crisis, occurring between 2007 and 2010, that contributed to the U.S. recession of December 2007 – June 2009. It was triggered by a large decline in home prices after the collapse of a housing bubble, leading to mortgage delinquencies and foreclosures and the devaluation of housing-related securities.
