

opening up body modification pdf

Many cars were "hopped up" with engine modifications such as adding additional carburetors, high compression heads, and dual exhausts. Engine swaps were often done, with the objective of placing the most powerful engine in the lightest possible frame and body combination. The suspension was usually altered, initially by lowering the rear end as much as possible using lowering blocks on the ...

York Compressor Oil System Modification. Most A/C compressors lubricate themselves with the freon that flows through the A/C system. In order to use these compressors for pumping air, you need to have an external oiler feeding air into the intake hose and a filter to remove the oil from the output hose.
