Frequently Asked Questions About Creationism and Evolution"

Young Earth creationism (YEC) is a form of creationism, a religious belief, which holds that the universe, Earth, and all life on Earth were created by direct acts of God less than 10,000 years ago. Its primary adherents are Christians who subscribe to a literal interpretation of the creation narrative in the Bible's Book of Genesis and believe that God created the Earth in six 24-hour days.

Abiogenesis, or informally the origin of life, is the natural process by which life has arisen from non-living matter, such as simple organic compounds. While the details of this process are still unknown, the prevailing scientific hypothesis is that the transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular ...

The anthropological sciences occasionally have to deal with something which has a profound but unexpected impact on our understanding of human origins. Two events are noteworthy, in part because both impacted powerfully upon our concept of human evolution, but also because they were diametric opposites. One was a truth first rejected, and the other was a false contrivance embraced as fact.

Why the Patterson-Gimlin Bigfoot Film Should Concern

The question of origins is plainly a matter of science history—not the domain of applied science. Contrary to the unilateral denials of many evolutionists, one's worldview does indeed play heavily on one's interpretation of scientific data, a phenomenon that is magnified in matters concerning origins, where neither repeatability, nor observation, nor measurement—the three immutable ...

At Ancient Origins, we believe that one of the most important fields of knowledge we can pursue as human beings is our beginnings. And while some people may seem content with the story as it stands, our view is that there exists countless mysteries, scientific anomalies and surprising artifacts that have yet to be discovered and explained.

The savanna-based theory. The savanna-based theory was one of the earliest models to explain the origins

of bipedalism and gathered support from several anthropologists ().It mainly suggested that the early hominids were forced to adapt to an open savanna after they left the trees by walking erect on two feet (Shreeve 1996).According to this theory, the evolution of bipedal locomotion would ...

Abstract: Joseph Smith taught that the origins of modern temple ordinances go back beyond the foundation of the world. 1 Even for believers, the claim that rites known anciently have been restored through revelation raises complex questions because we know that revelation almost never occurs in a vacuum. Rather, it comes most often through reflection on the impressions of immediate experience ...
