The University of Oxford is a collegiate research university in Oxford, England. There is evidence of teaching as far back as 1096, making it the oldest university in the English-speaking world and the world's second-oldest university in continuous operation. It grew rapidly from 1167 when Henry II banned English students from attending the University of Paris.

In 1790, the Oxford Canal connected the city with Coventry. The Duke's Cut was completed by the Duke of Marlborough in 1789 to link the new canal with the River Thames; and, in 1796, the Oxford Canal company built its own link to the Thames, at Isis Lock. In 1844, the Great Western Railway linked Oxford with London via Didcot and Reading, and other rail routes soon followed.
