As a postgraduate researcher in linguistics or applied linguistics, you will carry out a major research project working with supervisors who are experts in your field. We offer supervision in a wide range of languages and areas, including:

Linguistics, Applied Linguistics MPhil, PhD - Postgraduate

Computational linguistics is an interdisciplinary field concerned with the statistical or rule-based modeling of natural language from a computational perspective, as well as the study of appropriate computational approaches to linguistic questions.. Traditionally, computational linguistics was performed by computer scientists who had specialized in the application of computers to the ...

Computational linguistics - Wikipedia

Functional theories of grammar are those approaches to the study of language that see functionality of language and its elements to be the key to understanding linguistic processes and structures. Functional theories of language propose that since language is fundamentally a tool, it is reasonable to assume that its structures are best analyzed and understood with reference to the functions ...
