

passport to your national pdf

A biometric passport (also known as an e-passport, ePassport, or a digital passport) is a traditional passport that has an embedded electronic microprocessor chip which contains biometric information that can be used to authenticate the identity of the passport holder. It uses contactless smart card technology, including a microprocessor chip (computer chip) and antenna (for both power to the ...

Biometric passport - Wikipedia

Every citizen is a national of the United States, but not every national is a citizen. There is a small class of American Samoans, born in American Samoa, including Swains Island, who are nationals but not citizens of the United States, This is because people born in American Samoa are not automatically granted US citizenship by birth. See Passport message, below.

United States passport - Wikipedia

A discussion of the proposed National ID Card and its potential impact on the freedom and liberty that we take for granted. Implementation of the National ID Card could easily turn this country into a police state.
