Philosophy (from Greek $\phi\lambda\sigma\sigma\phi\alpha$, philosophia, literally "love of wisdom") is the study of general and fundamental problems concerning matters such as existence, knowledge, values, reason, mind, and language. The term was probably coined by Pythagoras (c. 570–495 BCE). Philosophical methods include questioning, critical discussion, rational argument, and systematic presentation.

Philosophy - Wikipedia

Philosophical fiction refers to the class of works of fiction which devote a significant portion of their content to the sort of questions normally addressed in discursive philosophy. These might include the function and role of society, the purpose of life, ethics or morals, the role of art in human lives, and the role of experience or reason in the development of knowledge.
