Probing the Mind: Anesthesia and Neuroimaging

The Metaphysical Mind explores the relationship between the brain and philosophical thought and helps us to understand how the brain enables and restricts our ability to think about these metaphysical concepts. One of the major developments of contemporary thought has been the field of hermeneutics.

The Mystical Mind Probing The Biology Of Religious

Successive chapters employ this understanding to explore myth-making, ritual and liturgy, meditation, near-death experiences, and theology itself. Original, daring, and widely acclaimed, the authors'™ research bears exciting implications for philosophy, science, theology, and the future of religion itself.
