Business Analytics Principles, Concepts, and Applications

Everyone has a passion, and some people love technology! Do you love developing mobile apps, video games or working with robotics equipment? If so, then the Programming and Mobile Applications program might be right up your alley!

Programming & Mobile Applications - Ingham ISD

Business Application Programming Interface (BAPI) is used in mySAP to achieve business related functionalities. It is a remote-enabled function module which is provided by SAP.. Description. BAPIs enable access to SAP functions across formal, stable and dialog-free interfaces.

Business Application Programming Interface - Wikipedia

In computer programming, an application programming interface (API) is a set of subroutine definitions, communication protocols, and tools for building software. In general terms, it is a set of clearly defined methods of communication among various components. A good API makes it easier to develop a computer program by providing all the building blocks, which are then put together by the ...
