Hot Rolled and Structural Steel Products - LearnEASY

Gerry McCarthy outlines the technical requirements regarding CE Marking of structural steel and offers guidance on ensuring contracts are constructed in line with the Construction Products Regulation Since 1 July 2014, CE Marking of structural steelwork has become mandatory for fabricated structural ...

Update on CE marking of structural steel for engineers

The purpose of a structural steelwork specification is to state what materials and products should be used and how work (fabrication and erection) should be carried out, in order to ensure that the completed structure meets the designer's assumptions and the client's needs. Design standards, such as the Eurocodes, give design rules that are valid only if strength, dimensional accuracy and ...

Steelwork specification - Steelconstruction.info

This project comprised the design & construction of 120m of quay wall incorporating two bank seats and one interchangeable linkspan. The quay wall consisted of 33m long, 1.4m diameter combi wall tubular steel piles driven through port clay with a driven tie back wall.

Vacuum Insulated Piping for LNG Service Without a doubt the best performing insulated piping available, vacuum insulation has been used for decades in industries where the transfer of cryogenic liquefied gases is used. The LINDE PROCESS PLANTS and PHPK TECHNOLOGIES partnership now brings the LNG INDUSTRY the most reliable and

Vacuum Insulated Piping for LNG Service - PHPK

Steel is an alloy of iron and carbon, and sometimes other elements. Because of its high tensile strength and low cost, it is a major component used in buildings, infrastructure, tools, ships, automobiles, machines, appliances, and weapons.. Iron is the base metal of steel. Iron is able to take on two crystalline forms (allotropic forms), body centered cubic and face centered cubic, depending on ...
